There's a breath of
fresh air in security

MENVIER

SECURITY FOR
PROFESSIONALS

Fresh look Fresh thinking Fresh commitment

There's no doubt Menvier is an established name in the commercial and domestic security market, with a well earned reputation for reliability and excellence in technology. To stay at the forefront of the field we retain a committed approach to innovation and investment in new product development. It's through keeping things fresh that we not only meet, but go beyond the needs of the modern customer.

The new breed of alarm panels

The new 'M' series of panels has been specifically designed with the installer in mind, based on a 'know one panel, know them all' philosophy.

These new panels offer the most advanced technology in the intruder alarm industry, offering unique features including the option of individually programmable zone resistances, rapid data transfer via USB port and an integral, high-speed digital modem, which in turn saves valuable time and money.

THE M SERIES

COMMON FEATURES

- ▶ All PD6662 grade 3
- ▶ Simplified, easy-programmable software
- ▶ Energy efficient, intelligent power supplies
- ▶ 868MHz narrow-band radio expansion
- ▶ Programmable zone configurations simplify system takeovers
- ▶ Backward compatibility with Menvier Networker expansion

M3000

- ▶ 1024 zones
- ▶ 32 fully independent split areas with up to 512 keypads
- ▶ Up to 2000 programmable outputs
- ▶ 10,000 event log

M1000

- ▶ 144 zones
- ▶ 8 fully independent split areas with up to 68 keypads
- ▶ Up to 300 programmable outputs
- ▶ 2000 event log

M800

- ▶ 40 zones
- ▶ 3 fully independent split areas with up to 16 keypads
- ▶ Up to 69 programmable outputs
- ▶ 1000 event log

iDplus version also available.
